ARRIVING.
Thursday, March 12.
S. S. Nebraskan, Greene, from Kahului, at 6 a. m.
S. S. Nihau, W. Thompson, from Ahukini, at 2:20 a. m., with 7,000 bags sugar.
Friday, March 13.
S. S. Mauna Loa, Simerson, from Lahaina, Maalea, Kona and Kau ports, due early in morning.

DEPARTING.
Thursday, March 12.
S. S. Mikahala, Gregory, for Kauai ports, at 5 p. m.
S. S. Waiakale, Mosher, for Koloa, Makaweli and Waimea, at 3 p. m.
Friday, March 13.
S. S. Nebraskan, Greene, for San Francisco, at 3 p. m.

BROKE HER CHOCK.
While at Anahola yesterday, the steamer Ke Au Hou broke her star-board chock.

FLOUR AND APPENDICITIS.
Physicians Say Modern Milling Is Responsible For Disease.

Changes in milling processes are responsible for appendicitis, according to a physician who has been in the practice of medicine for fifty years, and who has observed the spread of the disease. This physician, Dr. H. C. Howard of Champaign, Ill., asserts that until the trade demand for exceedingly white flour changed the methods of grinding wheat there was no appendicitis.

To prove this assertion the physician points to the fact that where coarse breads are used the disease is unknown, but that as soon as the fine breadstuffs are introduced appendicitis comes along as a sequence. By this reasoning it is shown that the people of agricultural communities who secured their flour from small mills did not have the disease until the small mills were crowded out by the large ones and fine white flour supplanted the coarse. Then the negroes of the south so long as they ate corn bread were free from the disease, but when the new process flour began to be used the disease came among them. The same results attended the departure of the German folks from their coarse bread to the refined flour.

"I can remember that prior to about 1875," said Dr. Howard, "there was little or none of the ailment among the people. In twenty-five years of practice among the people before that time I do not think I saw more than forty cases of appendicitis. Now they are common."

"Large and extended change in the diet of people has contributed to this. For example, about the date mentioned there began to be a general change from the old method of grinding grain to the present method of roller mills and excessively fine bolting cloths. This plan of milling began first in the large cities, and appendicitis began to increase first there. Later the new process crowded out the small mills in the country, and the people could not get flour made by the old processes. They bought products of the large mill-establisments, and then the farmers began to have appendicitis."

"Still the negroes of the south did not have it, but in time they began to get away from their plain corn bread, and they, too, began to have appendicitis. So it goes. They did not have appendicitis in Germany until they began to eat our fine white flour and put in the new process of milling after our fashion. Now they have appendicitis in Germany, just as we do."

"Experienced millers will tell you that the fine flour is a less desirable flour than that made by the old process, but the trade demands it chiefly on account of its whiteness. On account of its indigestibility the disarrangement of the digestive organs of the people eating it has greatly increased. The prime cause of appendicitis is found in this disarrangement."

"Quite small children have it. I know one boy who has had thirteen well-defined attacks of the disease and came out of all of them without surgical operations. He changed his food to corn bread and mush, with coarse bread in general, vegetables, little meat, and some fruit, and he has taken no flesh and has not had a symptom of the disease for three years.—Chicago Tribune.

ARTICHOKE BOOZE.

Alcohol from the Jerusalem artichoke is a new suggestion.

GOLDEN POPPY IS MADE STATE FLOWER

GOVERNOR SIGNS THE BILL AND A CELEBRATION IS HELD BY THOSE WHO ARE INTERESTED.

SACRAMENTO, March 2.—The golden poppy is now the official State flower, Governor Pardee having signed the bill designating it as California's floral emblem. Senator Smith of Los Angeles and Assemblyman Bliss of Alameda, who introduced the measure, placed a heap of poppies on the desk of the presiding officer of the Senate tonight, and the Governor's message announcing his approval of the bill was then read. Mrs. J. G. Lemmon of Berkeley, representing the organization that asked for the enactment, was escorted to a seat beside the presiding officer, and, at Senator Smith's request, Senator Sherridge presented her with the gold-mounted quill with which Governor Pardee put his name to the bill. Mrs. Lemmon said that twenty-five States had designated their State flowers, having been urged to do so by the National Floral Emblem Society. The poppy bill was passed at two former sessions of the Legislature, but each time the governor declined to approve it. Assemblyman Bliss closed the little celebration by reading some verses about the golden poppy.

PEPPERMINT OIL.

Kalamazoo, Mich., is a center of the peppermint oil industry.

Chamberlain's Cough Remedy is intended especially for coughs, colds, whooping cough and influenza. It has become famous for its cures of these diseases over a large part of the civilized world. The most flattering testimonials have been received giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous results. It is especially prized by mothers because it contains nothing injurious; and there is not the least danger in giving it, even to babies. It always cures and cures quickly. All Dealers sell it. Benson, Smith & Co., general agents.

The twenty-third assessment of 10% or two dollars (\$2.00) per share has been called to be due and payable October 21, 1902.

The twenty-fourth and final assessment of 10% or two dollars (\$2.00) per share has been called to be due and payable December 20, 1902.

Interest will be charged on assessments unpaid ten days after the same are due at the rate of one per cent (1%) per month from the date upon which such assessments are due.

The above assessments will be payable at the office of The B. F. Dillingham Co., Ltd., Stangenwald building. (Signed) ELMER E. PAXTON, Treasurer Olaa Sugar Co. May 12, 1902.

Important Reasons

Why Herring-Hall-Marvin
Safe Co.'s Safes and
Locks are the Best?

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning, and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, THERE IS NOT A SINGLE INSTANCE ON RECORD WHEREIN ONE OF THEM EVER FAILED TO PRESERVE ITS CONTENTS PERFECTLY. They make safes for county treasurers, county recorders, county clerks, jewelers, Hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
